

Attention: Science & Technology Teachers & RoboCup Mentors

A RoboCup Junior Workshop for Teachers

An introduction to RoboCup Junior Dance & Rescue

This year the Australian Robocup Junior competition will be held in Canberra at the ANU on the 18th & 19th of September 2010.

Robocup Junior Australia is a national robotics competition for schools that excites and motivates students.

This workshop will help teachers prepare their students to participate in the Dance & Rescue competition.

Engaging and motivating see how you can improve your students learning outcomes teaching through robotics. This Robocup Junior Dance workshop will help teachers prepare their students to participate in the RCJA Dance event

This workshop is also suitable for those teachers who would like to learn more about the NXT and NXT-G software. The activities used to demonstrate the power and ease of use of the NXT are based upon the principles and strategies used to participate in and have success in the RoboCup Junior Dance & Rescue competition.

Participants at the workshop will be introduced to basic programming and the Dance & Rescue using the NXT robots with instruction given using NXT-G Software
