

RoboCup Rescue Speed Humps Construction

1. With a sharp craft knife and metal ruler, cut out each of the Speed Humps.

2. Cut to the same size as the Speed Humps 3 pieces of 5mm MDF or 3 ply or multiple layers of cardboard stuck together.
3. Glue the Speed Hump cut outs onto the 5mm thick mounts.
4. Using either spray on contact adhesive OR 3M High-Tack 76, 77 or 90 to stick the Speed Hump tile to your mounting board.
5. Glue your Speed Humps into place in the holes that are left by the cut-outs.
6. Leave to dry and then solve the Speed Hump challenge.
